

Humber and North Yorkshire Cancer Alliance

Charley Hewitt
Cancer Diagnostics and Innovation Senior Project Officer
Humber and North Yorkshire Cancer Alliance

My strengths:

- People-oriented
- Compassionate
- Initiative-taking not reactive
- Motivated by new challenges.
- Project management and 17 years NHS experience

I am a diligent and driven individual who is not afraid to face a challenge. I am passionate about both work and life, and my positive nature brings out the best in people. I thrive when working as part of a team and value other people's opinions and points of view.

What working style works for me:

Collaborative; compassionate; logical and supportive.

I am a dedicated and enthusiastic worker and strive to be recognised as somebody who consistently does their best and delivers high standards of work.

This is why I am interested in cancer:

1 in 2 people will develop some form of cancer during their lifetime and through the power of working together, we can make real progress in the fight against cancer. Working in the Cancer Diagnostics and Innovation team opens up a world of new and exciting solutions that will help us to find and diagnose cancer earlier.

This is what is important to me:

I am motivated by a sense of purpose and am proud to be an integral part of a team that is committed to driving forward positive change in cancer care services. Inequity in cancer care costs lives and we have a responsibility to close the gap through whatever means are available to us. For me, that is working for the Cancer Alliance and seeking out opportunities to raise money to support the charities.

What I am like when I am not at work:

I have a powerful sense of wanderlust and am fascinated with exploring unfamiliar places, interacting with new people, and learning new cultures. Travel represents a way for me to break from everyday life and the familiar, whilst indulging my curiosity of experiencing something new and unknown.

I also enjoy hiking and exploring off the beaten track; photography; running and a good mug of coffee!
