

Humber and North Yorkshire Cancer Alliance

Representative one page profile: Emma Lewin Project Delivery Manager – Awareness and Early Diagnosis, Humber and North Yorkshire Cancer Alliance

My strengths:

The connections that I have made whilst doing this role and being able to introduce organisations/groups that can potentially help each other.

What working style works for me:

Analytical.

This is why I'm interested in cancer:

Like many I have had friends and family affected by cancer in some way shape or form and this includes myself. The fact that I can make a difference in some way without being clinically trained.

These are the groups and networks I am involved in:

Whilst working with Cancer Champions, I have met and become involved with a wider number of organisations, groups and networks, with many of these being within communities.

This is what is important to me:

Making a difference and helping people understand that cancer is something that affects a lot of people and that we can all help to prompt people when something doesn't quite look/sound right.

What I am like when I am not at work:

I enjoy spending time with my family and friends and also on my allotment.

Any other information you should know about me:
