

Representative one page profile: RACHEL IVESON
PROGRAMME LEAD CANCER DIAGNOSTICS AND INNOVATION -
Humber and North Yorkshire Cancer Alliance

My strengths:

- Collaborative
- 20 years NHS experience
- Public health background and health inequalities
- Honesty
- Integrity

What working style works for me:

- Inclusive
- Results orientated
- Supportive, kind, flexible

This is why I'm interested in cancer:

I lead the cancer diagnostics innovation programme focussed on solutions that will help us find and diagnose cancer earlier, it's a truly exciting area and gives me hope for the future.

These are the groups and networks I am involved in:

- National Delivery Group Multi Cancer Blood Test Programme
- Cancer Diagnostics and Innovation Board
- Health Innovation Network Yorkshire and Humber
- Innovation, Research and Improvement System (IRIS) Community of Practice
- Awareness and Early Diagnosis Board
- NHS Open Call
- Artificial Intelligence Community of Practice

This is what is important to me:

Making a difference, prevention and early diagnosis

What I am like when I am not at work:

I try to appreciate that the small things are the big things in life. I spend a lot of time with my family and friends and my bossy wire-haired dachshund. I love being outside, walking, plants, wildlife, music, and comedy.

Any other information you should know about me:

I am a friendly, approachable person, if you think we can work together please get in touch.
